WOMEN EMPOWERMENT AND GREIVENCE CELL INAUGURATED ON 6TH MARCH 2014 The Women's Empowerment And Grievances cell gives the education and empowerment of women throughout the world cannot fail to result in a more caring, tolerant, just and peaceful life for all.

The candle lighting was done by CHIEF GUEST SUE (Social Worker) , Prof. G.Yasuratnam(Principal), Prof. G.Saraswathi(Convenor)and Dr.G.Jaya Suma(Secretary).

Skill without imagination is craftsmanship and gives us many useful objects such as wickerwork picnic baskets. Imagination without skill gives us modern art.

We keep moving forward, opening new doors, and doing new things, because we're curious and curiosity keeps leading us down new paths.

Knowledge is gained by learning; trust by doubt; skill by practice; and love by love.

Our honored chief guest graced the event by her valuable words. she emphasized on the thought that girls are bound” Each move is dictated by the previous one that is the meaning of order.”

“A lady's imagination is very rapid; it jumps from admiration to love, from love to matrimony in a moment.”

— Jane Austen, Pride and Prejudice

Few valuable words by our beloved faculty members

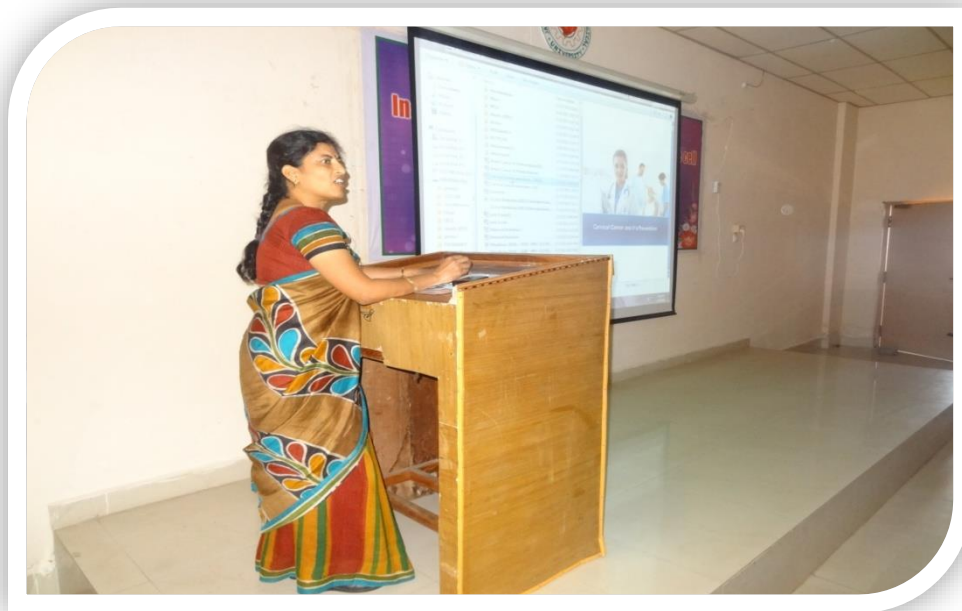

Education is not the piling on of learning, information, data, facts, skills, or abilities - that's training or instruction - but is rather making visible what is hidden as a seed.

Ralph Waldo Emerson once asked what we would do if the stars only came out once every thousand years. No one would sleep that night, of course. The world would become religious overnight. We would be ecstatic, delirious, made rapturous by the glory of God. Instead the stars come out every night, and we watch television.

Few valuable words by guest.

“Your greatest awakening comes, when you are aware about your infinite nature.”

Presentation by Dr. Venkat laxmi

Chief Guest interacting with our students and sharing her advices

“WE ALREADY HAVE everything we need. There is no need for self-improvement. All these trips that we lay on ourselves—the heavy-duty fearing that we’re bad and hoping that we’re good, the identities that we so dearly cling to, the rage, the jealousy and the addictions of all kinds—never touch our basic wealth. They are like clouds that temporarily block the sun. But all the time our warmth and brilliance are right here. This is who we really are. We are one blink of an eye away from being fully awake.”

YOU ARE BRILLIANT, AND THE EARTH IS HIRING

Felicitation done to the guest of honor by Convener.

“You are one thing only. You are a Divine Being. An all-powerful Creator. You are a Deity in jeans and a t-shirt, and within you dwells the infinite wisdom of the ages and the sacred creative force of All that is, will be and ever was.”

“Any time you are with anyone or think of anyone you must say to yourself: I am dying and this person too is dying, attempting the while to experience the truth of the words you are saying. If every one of you agrees to practice this, bitterness will die out, harmony will arise.”

“You educate a man; you educate a man. You educate a woman; you educate a generation.”

“A kind of light spread out from her. And everything changed color. And the world opened out. And a day was good to awaken to. And there were no limits to anything. And the people of the world were good and handsome. And I was not afraid anymore.”

Group picture

“For a seed to achieve its greatest expression, it must come completely undone. The shell cracks, its insides come out and everything changes. To someone who doesn't understand growth, it would look like complete destruction.”

Thank you...
