Women Empowerment!! Helping women to find their voices

What comes to your mind, when I say women empowerment?

Women empowerment is empowering the women to take their own decisions for their personal dependent. Empowering women is to make them independent in all aspects from mind, thought, rights, decisions, etc by leaving all the social and family limitations. It is to bring equality in the society for both male and female in all areas. Women empowerment is very necessary to make the bright future of the family, society and country.

Students and faculty members attended the event.

Women need fresh and more capable environment so that they can take their own right decisions in every area whether for themselves, family, society or country. In order to make the country fully developed country, women empowerment is an essential tool to get the goal of development.

*Take criticism seriously, but not personally. If there is truth or merit in the criticism, try to learn from it. Otherwise, let it roll right off you. – **Hillary Clinton***

Dr G. Yesuratnam (CHAIRMAN) then graced the event with his kind words

Self-empowerment is taking control of our own life, setting goals, and making positive choices. Basically it means that we have to understand our strengths and weaknesses, and have belief in ourselves.

Our honored chief guest Smt. S.D.Anitha (Special deputy collector) graced the event by her valuable words. She emphasized on the thought that girls are bound.

Our honored chief guest Dr.C.L.L.Jayaprada(Professor in English, Andhra University) graced the event by her valuable words. she emphasized on the thought on "Self Empowerment &Stress Management".

Stress management refers to the wide spectrum of techniques and psychotherapies aimed at controlling a person's levels of stress, especially chronic stress, usually for the purpose of improving everyday functioning.

Our honored chief guest Mrs.P.Venkataratnam,Deputy Superintendent of Police,Vizianagaram. graced the event by her valuable words. she emphasized on "Human Relationship and Morals in Society"

Human relationship -

a relation between people; ('relationship' is often used w here `relation'would serve, as in `the relationship betwee n inflation and unemployment', but the preferredusage of

'relationship' is for human relations or states of relatedness); "the relationship between mothers and their children"

***Morals** are the rules that govern which actions are right and which are wrong. Morals can be for all of society or an individual's beliefs. Sometimes a moral can be gleaned from a story or experience.*

According to the provisions of the Constitution of India, it is a legal point to grant equality to women in the society in all spheres just like male.

The Department of Women and Child Development functions well in this field for the proper development of the women and child in India.

Women are given a top place in India from the ancient time however they were not given empowerment to participate in all areas.

They need to be strong, aware and alert every moment for their growth and development. Empowering women is the main motto of the development department because an empowered mother with child makes the bright future of any nation.

“All the children of the mother earth are equal”

"I raise up my voice—not so I can shout, but so that those without a voice can be heard...we cannot succeed when half of us are held back." —Malala Yousafzai
