INAUGURATION TIME

The candle lighting was done by Principal, Sectary, and horned guest.

“Women Empowerment refers to the creation of an environment for women where they can make decisions of their own for their personal benefits as well as for the society.”

What comes to your mind, when I say women empowerment?

I would like to reach an important message of women empowerment in India to all of you through my speech. The aim of Women's Development Project in India is to bring social and economic betterment of the women all around the country. The core mechanism of this programme was promoting women's self-help group to make women empowerment effective.

To really bring women empowerment there should be changes in the women's mobility, social interaction, labour patterns, control over decision-making and access to and control over various resources.

Students and faculty members attended the event.

Educations mean an overall development!! We must embark on a journey to an all-round development of women.

Valuable lessons are hidden everywhere. All it takes is great teacher to all students where to look!

Dr. G. Jaya Suma(SECRETARY) then graced the event by her kind words.

Prof. G.Saraswathi (Convener) then graced the event by her kind words.

HOW IS WOMEN EMPOWERMENT IMPORTANT?

All the members attending the workshop on women empowerment

1. Under-employed and unemployed: Women population constitutes around 50% of the world population. A large number of women around the world are unemployed. The world economy suffers a lot because of the unequal opportunity for women at workplaces.

2. Equally competent and intelligent: Women are equally competent. Nowadays, women are even ahead of men in many socio-economic activities.

3. Talented: Women are as talented as men. Previously, women were not allowed higher education like men and hence their talents were wasted. But nowadays, they are also allowed to go for higher studies and it encourages women to show their talents which will not only benefit her individually but to the whole world at large.

4. Overall development of society: The main advantage of Women Empowerment is that there will be an overall development of the society. The money that women earn does not only help them and or their family, but it also help develop the society.

5. Economic Benefits: Women Empowerment also leads to more economic benefits not to the individuals but to the society as well. Unlike earlier days when they stayed at home only and do only kitchen stuffs, nowadays, they roam outside and also earns money like the male members of the society. Women empowerment helps women to stand on their own legs, become independent and also to earn for their family which grows country's economy.

6. Reduction in domestic violence: Women Empowerment leads to decrease in domestic violence. Uneducated women are at higher risk for domestic violence than educated women.

7. Reduction in corruption: Women Empowerment is also advantageous in case of corruption. Women empowerment helps women to get educated and know their rights and duties and hence can stop corruption.

8. Reduce Poverty: Women Empowerment also reduces poverty. Sometimes, the money earned by the male member of the family is not sufficient to meet the demands of the family. The added earnings of women help the family to come out of poverty trap.

9. National Development: Women are increasingly participating in the national development process. They are making the nation proud by their

outstanding performances almost every sphere including medical science, social service, engineering, etc.

10. Irreplaceable in some sectors: Women are considered irreplaceable for certain jobs.

There are two ways of spreading light...

To be the candle, or the mirror that reflects it.

Felicitation done to the Principal.

“Women, like men, should try to do the impossible. And when they fail, their failure should be a challenge to others.”
